PERSONAL PROJECTS

IntelliView: *Full-stack Django | DRF/GPT APIs | PostgreSQL*

- Developed a full-stack Django application with Django REST Framework, architected for GPT-powered API integration to generate adaptive interview questions and AI-driven feedback (tested).
- Optimized backend architecture and database models, improving performance efficiency and scalability by ~30% during simulated stress testing.

Realtime Activity Monitoring Platform: *DRF | Django Channels (WebSocket) | Bootstrap + Chart.js*

- Developed a real-time dashboard using DRF + Django Channels to stream activity logs via WebSockets with token-based authentication for REST and socket clients.
- Enhanced front-end responsiveness by integrating REST APIs and WebSocket streams, reducing update latency and page reloads by ~40%, leading to smoother real-time monitoring.

EDUCATION

Pune University || Maharashtra, India

August 2022 – June 2025

Bachelor's in Computer Applications – Software Engineering & IT

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Artificial Intelligence, Software Engineering, User Experience/User Interfaces, Object-Oriented Programming, Web App Development

CERTIFICATIONS

Full Stack Web Development Bootcamp — Python & Django

- Completed an intensive full-stack development bootcamp, gaining hands-on experience in Django, Python, HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Built multiple projects to practice authentication, REST APIs, and database modeling, gaining practical exposure to full stack workflows and deployment.

Digilamb Technologies — Intern

- Completed an internship focused on development, applied programming concepts through project-based learning and collaborative workflows.
- Gained practical experience through project-oriented learning and collaborative workflows, applying programming concepts in simulated real-world scenarios.

SKILLS

- Python , C++ , SQL
- Django, React.js, Express.js, PostgreSQL, Git
- Full-Stack Development, Android App Development, Web Application Development, API Testing
